## SUMMARY

I am seeking a position within an organization in User Interface Developer (UI). I will also convert my UI Design into pixel perfect Responsive HTML5/CSS3 I call there me as PSD2HTML Developer. I would like to work together with software or web design firms, communicating application design principles and strategies for ongoing development.

My aim is to create better interfaces and experiences for the user, making the web, applications and technology easier for the user. Simplifying communication barriers by bridging the gap between end-users, designers and developers.
